

How to save your favorites (2 ways)

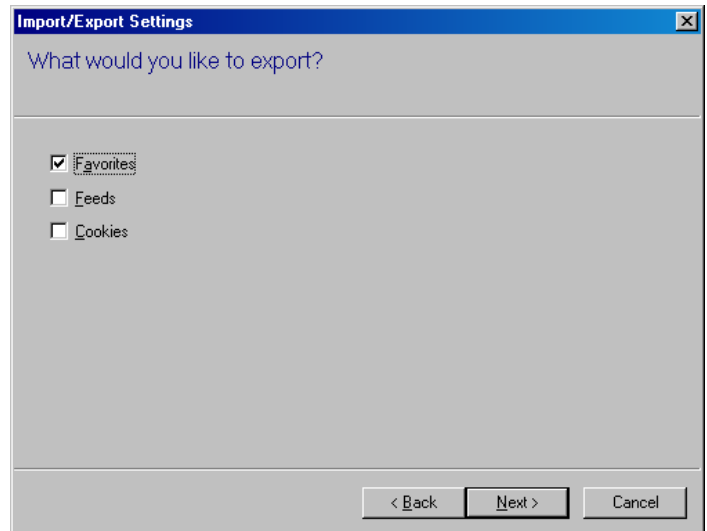

1. Open Internet Explorer, click file at the top, and select import/export.

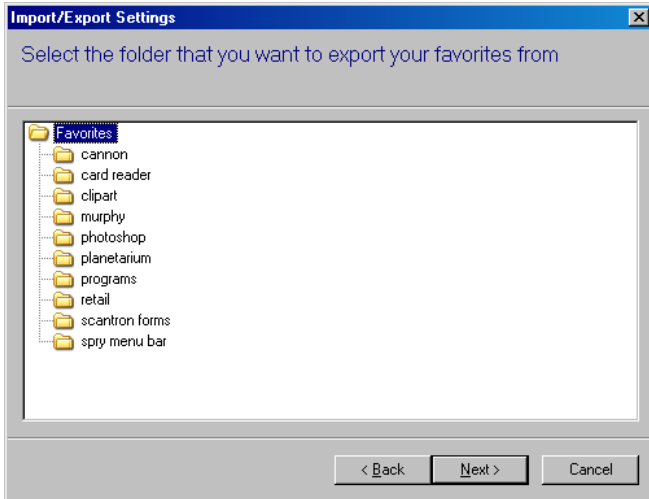

2. Select Export to file

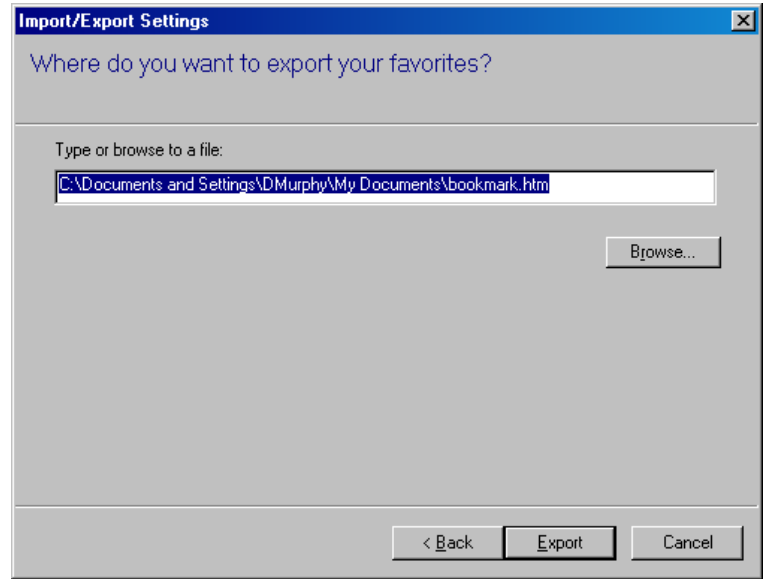

3. Select Favorites

4. Select the Favorites folder

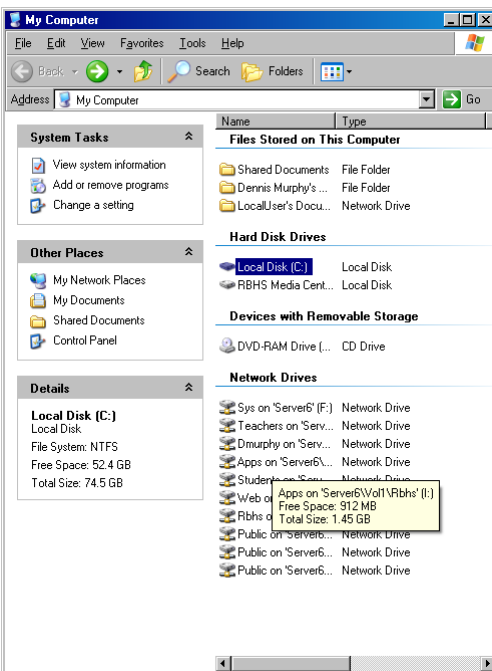

5. Browse to the folder you would like to save to and choose export.

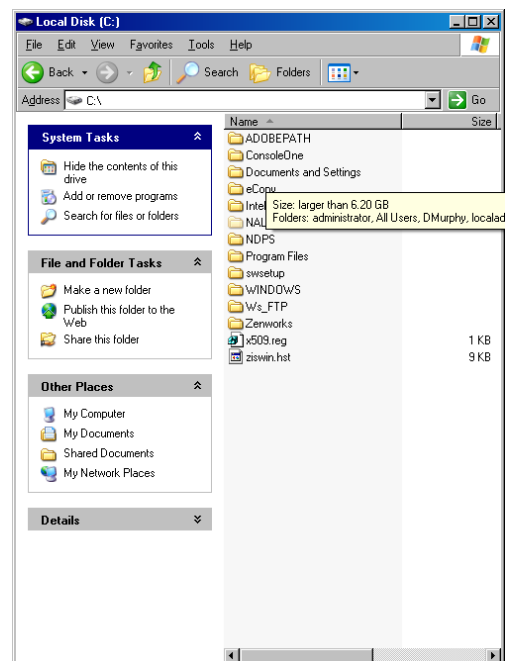

Here is the second way to save Favorites

1. Double-click on My Computer

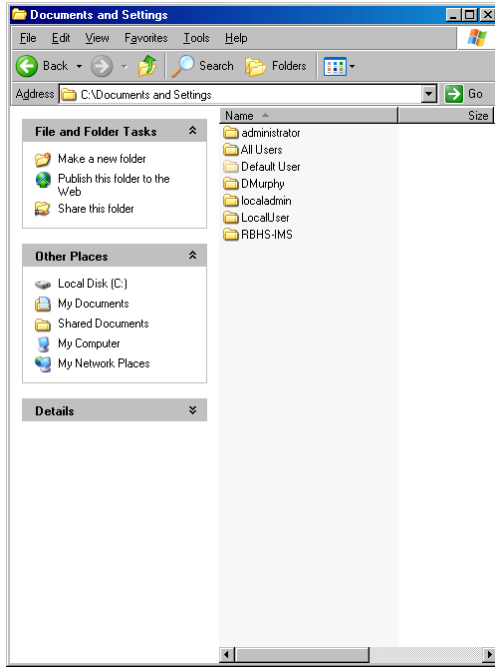

2. Double-click on local hard disk C

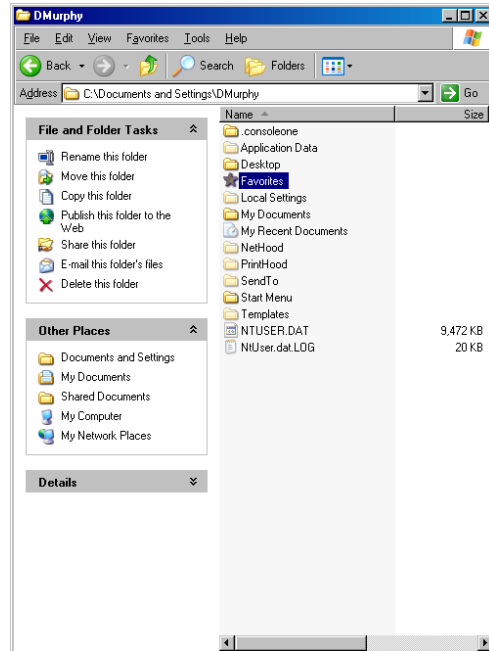

3. Double-click Documents and Settings

4. Double-click your login

5. Right-click on Favorites and choose copy

6. Go to the place you want to save favorites, right-click, and paste.

7. When you are ready to put your favorites back on your computer just copy them again from the folder wehre you saved them and then past back in the folder you took them from.
